GLK Foods Extends OH SNAP![®] Product Line with Pretty Peas

Where no veggie has gone before....

Appleton, Wis. (November 16, 2017): GLK Foods is pleased to announce the newest pickled veggie available under their OH SNAP![®] brand – Pretty Peas. These single-serve pickled snap peas are gluten-free, fat-free and made with non-GMO snap peas. Pretty Peas are fresh-packed with no added brine – this innovative process delivers superior crunch, great taste and less mess!

Pretty Peas is the latest addition to the OH SNAP! product line that includes two other pickled veggies – Cool Beans and Carrot Cuties – along with four varieties of fresh-packed, single-serve pickles. All seven delicious single-serve items in the OH SNAP! product line are packaged for ultimate convenience with no added brine, creating a whole new category for pickled snacking veggies.

OH SNAP! pickles and pickled veggies are not only the best pickle and pickled veggie pouch product on the market – they are also competitively priced. For more information, visit the OH SNAP! press center on ohsnappickles.com or contact Ashley Thomas at athomas@glkfoods.com.
